

Specification

Produce a “carousel” component that has the following features

- Slides that may contain any component; an image, some HTML, etc.
- Have dots below the slides that highlight the current slide
- If a dot is clicked, the carousel shows the corresponding slide
- Slides must have a fade transition
- The UI must be the same as above

Requirements

You **MUST** use the following

- **React** reactjs.org
- **Tailwind for CSS** tailwindcss.com
